China Shock

Context: A steep hike in tariffs, including a 100% duty on electric vehicles, has recently initiated "China Shock 2.0" in global markets.

➤ Overview:

- India faces a significant challenge as imports from China surpassed \$100 billion in 2023-24, despite imposed curbs
- A steep increase in tariffs, including 100% on electric vehicles and 50% on solar cells, is affecting global trade.
- The **China Shock** is a term that refers to the impact of China's economic rise on the global economy, including the United States and Europe

➤ Historical Context

- China's WTO Accession:** Bill Clinton supported China's entry, believing it would foster political reform and economic freedom.
- China Shock:** Following its WTO entry, affordable Chinese goods led to significant job losses globally, impacting Indian manufacturing as imports surged from \$10.87 billion in 2005-06 to over \$100 billion in 2023-24.

➤ India-China Relations

- Establishment of Relations:** Diplomatic ties were established on April 1, 1950, with India being the first non-communist country to recognize the People's Republic of China (PRC).
- Panchsheel Agreement:** In 1954, the two nations signed this agreement, emphasizing peaceful coexistence and respect for sovereignty.
- Border Disputes:** Tensions arose due to border disputes, notably after China's invasion of Tibet in 1950 and the Sino-Indian War in 1962, which resulted in a decisive victory for China.

➤ Key Phases in Relations

- Early Years (1950s-1960s):** Minimal interaction, focused mainly on trade and cultural exchanges; the 1962 war marked a significant setback.
- Normalization Efforts (1980s):** Prime Minister Rajiv Gandhi's 1988 visit initiated engagement, leading to agreements to maintain peace along the Line of Actual Control (LAC).
- Post-Cold War Cooperation (1990s-2000s):** Increased economic engagement and the establishment of the Special Representatives Mechanism in 2003 for resolving boundary disputes.
- Recent Developments (2010s-Present):** Significant tensions arose from the Doklam standoff in 2017 and

the Galwan Valley clash in June 2020, highlighting ongoing border disputes.

➤ Current Challenges

- Border Tensions:** Frequent skirmishes along the LAC have deteriorated trust, with the Galwan Valley clash resulting in casualties.
- Strategic Rivalry:** China's growing influence in South Asia through the Belt and Road Initiative (BRI) is seen as a challenge, especially regarding territorial claims.
- Geopolitical Dynamics:** India's military cooperation with the U.S. and allies is viewed as a counterbalance to China's assertiveness in the Indo-Pacific region.

➤ Policy Approaches

- Two-Pronged Strategy:**
 - Engagement:** Continued diplomatic dialogue through forums like BRICS and SCO while maintaining economic ties.
 - Deterrence:** Strengthening military capabilities and forming strategic partnerships with other nations.

➤ Current Trade Dynamics

- Trade Volume:** In FY 2024, India's bilateral trade with China reached \$118.4 billion, with China regaining its position as India's largest trading partner.
- Imports and Exports:**
 - Imports:** Totaled \$101.7 billion, an increase of 3.24% from the previous year.
 - Exports:** Rose by 8.7% to \$16.67 billion.
 - Trade Deficit:** Widened from \$53.57 billion in FY19 to \$85.09 billion in FY24.

THE DISCREPANCY BETWEEN INDIA & CHINA TRADE DATA

➤ Sectoral Dependence

- Critical Sectors:**
 - Telecom and Smartphone Parts:** \$4.2 billion imported, accounting for 44% of imports in this category.
 - Laptops and PCs:** Imports reached \$3.8 billion, making up 77.7% of total imports.
 - Electric Vehicles (EV):** Lithium-ion batteries imported amounted to \$2.2 billion, representing 75% of such imports.

Face to Face Centres

28 September, 2024

- **Solar Equipment:** India relies on China for 80% of solar cells and modules; access is blocked in response to anti-dumping investigations.
- **Steel Imports:** Steel imports reached a seven-year high, with Indian steelmakers seeking government intervention against dumping.
- **Electronics:** Over \$12 billion in electronic components imported in FY24, indicating ongoing reliance despite local manufacturing growth.

➤ Strategic Responses

- **Measures to Reduce Dependency:**
 - Introduction of **Production-Linked Incentive (PLI)** schemes to boost domestic manufacturing.
 - **Imposition of anti-dumping duties** and enforcement of quality control orders to protect local industries from unfair competition.

Biodiversity Beyond National Jurisdiction Agreement (BBNJ)

Context: Recently, India signed the Biodiversity Beyond National Jurisdiction Agreement at UN general Assembly

➤ Overview:

- India signed the High Seas Treaty, enabling enhanced strategic presence and promoting conservation of marine biodiversity beyond its Exclusive Economic Zone.
- The BBNJ Agreement focuses on marine genetic resources, fair benefit sharing, area-based management tools, and environmental impact assessments.

➤ About the BBNJ Agreement

- **Approval Date:** July 2, 2024
- **Implementation:** Led by the Ministry of Earth Sciences.
- **Significance:** Marks a major step in conserving and sustainably utilizing marine biological diversity in areas beyond national jurisdiction, known as the "High Seas."
- **Aim:** Address long-term protection of marine biodiversity in the high seas.
- **Mechanisms:** Establishes frameworks for sustainable use through international cooperation, ensuring fair sharing of benefits.
- **Approach:** Ecosystem-centric, precautionary principle, incorporating traditional knowledge and scientific expertise.
- **Tools:** Introduces area-based management tools and environmental impact assessments.

➤ Benefits for India

- **Strategic Presence:** Enhances India's presence beyond its Exclusive Economic Zone (EEZ).

- **Collaborations:** Strengthens marine conservation efforts and opens avenues for scientific research and development.
- **Capacity Building:** Facilitates technology transfer and access to marine resources.

➤ BBNJ Agreement Status

- **Signature Period:** Open for signature from September 2023 for two years.
- **Ratification:** Becomes legally binding after 60 ratifications, with 91 countries signed and 8 ratified as of June 2024.

➤ United Nations Convention on the Law of the Sea (UNCLOS)

- **UNCLOS Adoption:** Adopted in 1982 and effective since 1994, it governs maritime boundaries, rights to marine resources, and dispute resolution.
- **Background:** The BBNJ Agreement is an implementation agreement under the United Nations Convention on the Law of the Sea (UNCLOS).
- **Existing Agreements:** Complements the 1994 Part XI Implementation Agreement and the 1995 UN Fish Stocks Agreement.
- **Global Participation:** Over 160 countries have ratified UNCLOS.

Global Innovation Index (GII)

Context: Recently, WIPO released the Global Innovation Index (GII)

➤ Overview:

- India has ascended 42 positions in the Global Innovation Index over the past nine years, currently ranking 39th globally.
- China, Türkiye, India, Viet Nam and the Philippines are the fastest 10-year climbers.

➤ About the Global Innovation Index

- **Established:** Inception in 2007; shapes innovation measurement and economic policymaking.

Face to Face Centres

28 September, 2024

- **Purpose:** Assists governments in assessing the impact of innovation on social and economic changes.
- **Co-Publishers:** WIPO, Cornell University, and INSEAD Business School.
- **Evaluation Criteria:**
 - Institutions
 - Human capital
 - Research infrastructure
 - Credit and investment
 - Linkages and knowledge diffusion
 - Creative outputs

➤ Key Findings from GII 2024:

- **Top Performers:** Switzerland remains the leading nation, followed by Sweden, the US, and Singapore.
- **India's Progress:** India has moved up to 39th place among 133 economies, ranking first among lower middle-income countries and in the Central and Southern Asia region for several categories, including knowledge and technology outputs.
- In Central and Southern Asia, India (39th) continues to lead,
- **Strengths:** India excels in ICT services exports, venture capital, and intangible asset intensity.
- **Challenges in Green Technologies:** Slower progress in green technologies compared to the last decade.
- **Research and Development Growth:** Global R&D grew by 5% in 2022 but is projected to slow to 3% in 2023 in real terms.
- China reached the 11th position and remains the only middle-income economy in the GII top 30.

- **7 SEO economies are innovation leaders:** Singapore (4th), South Korea (6th), China (11th), Japan (13th), Hong Kong (18th), Australia (23rd), New Zealand (25th, up two places).

➤ Theme of the Report Social Entrepreneurship

- The 2024 GII emphasizes the growing importance of social entrepreneurship, defined as the development of innovative models to address social or environmental issues without profit as the primary goal.

➤ Significance of Social Entrepreneurship:

- **Economic Impact:** Contributes about \$2 trillion to the global GDP.
- **Job Creation:** Supports approximately 10-11 million social enterprises and around 30 million social entrepreneurs, fostering sustainable livelihoods.
- **Social Impact:** Aims to alleviate poverty, address environmental challenges, and combat social injustices.

➤ About WIPO

- **Headquarters:** Geneva, Switzerland.
- **Established:** 1967 as a specialized UN agency.
- **Objective:** To create a balanced and accessible international IP system that rewards creativity and stimulates innovation for economic development.
- **Membership:** 193 members, with India joining in 1975.
- **Major Treaties:** India is a member of the Paris Convention, Berne Convention, and Patent Cooperation Treaty.

NEWS IN BETWEEN THE LINES
