India-United States Trade Policy Forum (TPF)

- ✤ <u>Context</u>
 - Union Minister of Commerce and Industry visited Washington D.C. to participate in the 13th Ministerial Meeting of the India-U.S. Trade Policy Forum.

Basic Structure of the Indian Constitution

- ✤ <u>Context</u>
 - Recently, Vice President of India criticised the Supreme Court for using the doctrine of basic structure to strike down the constitutional amendment that introduced the National Judicial Appointments Commission Act.

Key Highlights:	• The doctrine has not been specifically defined but

If a law is found to "damage or destroy" the "basic features of the Constitution", the Court declares it unconstitutional.

Significance

- The test is applied to constitutional amendments to ensure the amendment does not dilute the fundamentals of the Constitutional itself.
- The test is widely regarded as a **check on majoritarian impulses** of the Parliament since it places substantive limits on the power to amend the Constitution.
- It protects the fundamental rights of the citizens against arbitrariness and authoritarianism of the legislature.
- It strengthens the cause of democracy and maintains the sanctity of the vision of our founding fathers.

A System that can Transform Polyethylene Terephthalate (PET) Plastic Waste and Greenhouse **Gases into Sustainable Fuels**

Context

Recently, Cambridge researchers find way to turn PET plastic bottles and carbon dioxide into sustainable fuels like CO, syngas or formate.

	-
 Key Highlights: Conversion of greenhouse gases like carbon dioxide and plastics into value-added products, driven by solar energy, is an important step in the transition to a more sustainable, circular economy. Mechanism The researchers developed an integrated reactor with two separate compartments: One for plastic and one for greenhouse gases. The reactor uses a light absorber based on perovskite — a promising alternative to silicon for next-generation solar cells. 	 photocatalytic CO2 reduction processes. Polyethylene Terephthalate (PET). Standards For Basmati Rice

Context

> First time in India, FSSAI notifies comprehensive regulatory standards for Basmati Rice.

Key Highlights:

FSSAI has specified the identity standards for Basmati Rice including Brown Basmati Rice, Milled Basmati Rice, Parboiled Brown Basmati Rice and Milled Parboiled Basmati Rice.

recyclable.

- As per these standards, Basmati rice shall possess natural fragrance characteristic of basmati rice and be free from **artificial colouring**, polishing agents and artificial fragrances.
- These standards also specify various identity and quality parameters for basmati rice such as average size of grains and their elongation ratio after cooking; maximum limits of moisture, amylose content, uric acid, defective/damaged grains and incidental presence of other non-basmati rice etc.
- **These standards** will be enforced w.e.f 1st August, 2023.

White Tufted **Royal Butterfly**

Context

Recently, a team of butterfly observers and researchers found White Tufted Royal Butterfly, \geq a rare butterfly species at Kalliyad in Kannur.

** Key Highlights:

- The species had earlier been spotted in Agasthyakoodam in 2017 and Shendurney Wildlife Sanctuary in 2018.
- The wingspan of the butterfly is just **32-40 mm**.
- Its larvae feed on Scurrula parasitica, a plant belonging to the Loranthaceae family. ٠
- There were eight species of the butterfly. While two are common, the others are rare.
- Unregulated laterite and granite quarries operating in Kalliyad is effecting the survival of such • rare species.
- **Conservation Status**
 - Wildlife Protection Act 1972 Schedule 2.

<section-header></section-header>	 Context The Prime Minister has paid tributes to Swami Vivekananda on his Jayanti. About Swami Vivekananda: Vivekananda, original name Narendranath Datta, was born on January 12, 1863, near Calcutta. He was educated at a Western-style university where he was exposed to Western philosophy, Christianity, and science. Social reform became a prominent element of Vivekananda's thought, and he joined the Brahmo Samaj. He later became the most-notable disciple of Ramakrishna, who demonstrated the essential unity of all religions. He was an activating force in the movement to promote Vedanta philosophy in the United States and England. In 1893, he appeared in Chicago at the World's Parliament of Religions where a newspaper account described him as "an orator by divine right and undoubtedly the greatest figure at the Parliament." Vivekananda founded the Ramakrishna Mission at the monastery of Belur Math. He adapted and made relevant to the 20th century the very highest ideals of the Vedantic religion.
<section-header></section-header>	 Context Around 250 Indian Skimmers were sighted in Coringa Wildlife Sanctuary in a day during the Asian Waterbird Census-2023. Key Highlights: The Indian skimmer or Indian scissors-bill (Rynchops albicollis) is one of the three species that belong to the skimmer genus Rynchops in the family Laridae. Characteristics They are very brightly marked in black, white & orange, making them difficult to miss. Distribution and Habitat It is found on large rivers and lakes, swamps and coastal wetlands such as estuaries.
New Dust Control	 Context CMPDIL Invents New Dust Control Technology. Key Highlights:

- In order to minimize and control the fugitive dust in mining areas, Central Mine Planning and Design Institute Limited (CMPDIL), Ranchi has invented a "System and Method for Controlling Generation and Movement of Fugitive Dust".
- They have and **obtained** patent for the same in December, 2022.

03

- This system can be used **in mines, thermal power plants, railway sidings, and ports**, construction sites wherein coal or fugitive materials are stored under open sky.
- Apart from reducing the dust generation from open sources, it will also provide noise attenuation.
- Fugitive dust is a form of particulate matter that contributes to air pollution that is generated from various sources which are exposed to air and not discharged into the atmosphere through a confined flow stream.
- The present invention relates to the **synchronized application of windbreak** (WB) and **vertical greenery system (VGS)** for reducing generation and dispersion of fugitive dust.

<section-header></section-header>	 Context Over the past two weeks, California and other parts of the West Coast have been hit with a series of what meteorologists call atmospheric rivers. Forecasters said the rain arriving in California is being caused by a "true Pineapple Express". Key Highlights: True Pineapple Express is a specific example of a common atmospheric phenomenon that resembles a conveyor belt for moisture. It is long, narrow regions in the atmosphere that transport most of the water vapor outside the tropics. These rivers in the sky occur often on the West Coast but can happen in other locations, including the eastern United States, where they often channel moisture from the Caribbean. They carry a lot of moisture — enough water vapor to equal or sometimes exceed the average flow of the Mississippi River at the point where it flows into the Gulf of Mexico. When this moisture begins to interact with land, it can fall as rain or snow. Often, as is the case lately in California, the precipitation is abundant because these atmospheric rivers provide a continuous flow of moisture.
BIS Standards	 Context Central Consumer Protection Authority issues notices to e-commerce entities for selling toys that violate compulsory BIS Standards. Key Highlights: CCPA issued notices to e-commerce entities, Amazon, Flipkart and Snapdeal for sale of toys in violation to standards. CCPA has sought response from the e-commerce entities within 7 days from issuance of notice, failing which necessary action may be initiated against them under the provisions of the Consumer Protection Act, 2019. CCPA has expanded the country-wide campaign to prevent sale of spurious and counterfeit goods that violate Quality Control Orders. Section 17 of the BIS Act, 2016 prohibits any person to manufacture, import, distribute, sell, hire, lease, store or exhibit for sale any such goods or article for which direction (QCO) of compulsory use of Standard Mark been published by the Central Government.
<section-header></section-header>	 Context Recently, The song Natu-Natu from SS Rajamouli's film RRR has won the Golden Globe Award. Key Highlights: The Golden Globe Awards are accolades bestowed by the Hollywood Foreign Press Association (HFPA) starting in January 1944. It recognizes excellence in both American and international film and television. Within the entertainment industry, the Golden Globes are considered second in importance both to the Academy Awards (for film) and to the Emmy Awards (for television).
