

Infestation of Kashmiri Apples

❖ Context:

- Iranian kiwis flooding the Kashmiri market are infecting locally harvested apples with the pests, *Aspidiotus nerd*, *Aonidella aurantii* and *codling moth*.

❖ Key Highlights:

- **Kashmir produces 71% of the country's apples**
 - Iran is also exporting apples to India, from orchards which have been affected by these pests, illegally and unlawfully under the trade name of Afghan apple misusing the free trade agreement.
 - **Codling moth larvae** are not able to feed on leaves. The caterpillars bore into fruit and stop it from growing, which leads to premature ripening.
 - They are **polyphagous**, able to utilise a variety of food sources and thus are spread all over the world.

26-27 December, 2021

❖ Key Highlights:

- An amount of **₹19,846.199 crore under the Andhra Pradesh Reorganisation Act, 2014** has been provided.
- As per the recommendations of the respective Finance Commissions, **Revenue Deficit Grant** of ₹22,112 crore for 2015-20 and ₹5,897 crore for 2020-21 had been granted.

❖ About Special Category (SCS) Status:

- There is **no provision of SCS in the Constitution**.
- Special Category Status (SCS) is a classification **given by the Centre to assist in the development of those states that face geographical and socio economic disadvantages** like hilly terrains, strategic international borders, economic and infrastructural backwardness, and non-viable state finances.
- The concept of SCS **emerged in 1969** when the **Gadgil formula** (that determined Central assistance to states) was approved.
- First SCS was accorded in 1969 to **Jammu and Kashmir, Assam and Nagaland**.
- Over the years, eight more states were added to
- The list:- Arunachal Pradesh, Himachal Pradesh, Manipur, Meghalaya, Mizoram, Sikkim, Tripura Land, finally, in 2010, Uttarakhand.
- Until 2014-15, SCS meant these **11 states received** a variety of benefits and sops.

❖ Granting SCS Status:

- Special Category Status for plan assistance was granted in the past by the **National Development Council** to the States that are characterized by a number of features necessitating special consideration.

- Now, it is done by the **central government**.

❖ Benefits:

- **Center state expenditure ratio is 90:10** for centrally-sponsored schemes and external aid while the rest **10 percent is given as loan** to the state at Zero Percent Rate of Interest (for general states 70:30)
- **Preferential treatment** in getting central funds.
- **Concession on excise duty** to attract industries to the state.
- **30 percent of the Centre's gross budget** also goes to special category states.
- These states can avail the **benefit of debt-swapping and debt relief schemes**.
- States with special category status are **exempted from customs duty, corporate tax, income tax** and other taxes to attract investment.
- Special category states have the facility that if they have unspent money in a financial year; it **does not lapse and gets carried forward** for the next financial year.

Flex-Fuel Vehicles

❖ Context:

- Govt has issued an **advisory to carmakers to introduce flex-fuel engines** in vehicles.

❖ Key Highlights:

- Carmakers are given **six months' time to introduce flex-fuel engines**.
- Manufacturers have to produce the Flex Fuel Strong Hybrid vehicles and both types of vehicles **must comply with the BS-6 emission norms**.

❖ About Flex-Fuel Vehicles(FFVs) :

- The flex-fuel engine-based vehicles **use a blend of the gasoline and ethanol**.
- FFVs will allow vehicles to **use all the blends and also run on unblended fuel**.
- Also, these vehicles are a **logical extension of the Ethanol Blended Petrol (EBP) programme** launched by the Union Ministry of Petroleum and Natural Gas in January 2003.
- Ethanol is a **by-product of sugarcane** but can also be made from grains. In short, **ethanol is a renewable fuel** made from various plant materials collectively known as biomass.
- Given the size of the country's sugarcane and grain production, **India can meet most of its ethanol requirements indigenously**.
- In a good flex-fuel vehicle, **up to 83 per cent ethanol can be mixed with petrol**, which is a global standard.

150th Birth Anniversary of Sri Aurobindo

❖ Context

- The Prime Minister chaired the first meeting of the **High Level Committee (HLC)** which has been constituted to commemorate the 150th Birth Anniversary of Sri Aurobindo.

❖ About Sri Aurobindo

- Sri Aurobindo was an **Indian philosopher, yoga guru, maharishi, poet, and Indian nationalist.**
- He was also a journalist, editing newspapers such as **Bande Mataram.**
- **Composed 'SAVITRI' English poetry**
- **Wrote a famous book: 'THE LIFE DIVINE'**
- **Translated the song 'VANDE MATARAM (written by Bankim Chandra) into English.**
- From **1902 to 1910** he partook in the struggle to free India from the British. As a result of his political activities, **he was imprisoned in 1908 (Alipore Bomb case).** In this case he **was defended by- C.R Das.**
- Two years later he fled British India and **found refuge in the French colony of Pondichéry (Puducherry).**
- In Pondichéry he **founded a community of spiritual seekers**, which took shape as the **Sri Aurobindo Ashram in 1926** also he developed a spiritual practice called **Integral Yoga.**
- He believed that the **basic principles of matter, life, and mind would be succeeded through terrestrial evolution by the principle of supermind** as an intermediate power between the two spheres of the infinite and the finite.

Rare Pink Handfish

❖ Context:

- A rare 'walking' fish with hands has been spotted **after 22 years** in Australia near the **Tasmanian coast**, last spotted in **1999.**

❖ About:

- The **Australian marine researchers** used an underwater camera inside the seabed in **Tasman Fracture Marine Park.**
- Handfishes have small population sizes and their distributions are **restricted.** Thus, they are highly **vulnerable** to disturbance.
- Some species are classified as **critically endangered.**
- They are scientifically called as **Latin brachium.**
- The species has been named '**handfish**' because of their little hand like structure, which they use to walk on the sea bed.
- Handfishes grow up to 15 cm long. They have skin covered with denticles, which give them an alternate name '**warty anglers**'.
- They are **slow-moving fish.**
